On the University Assembly of the University of Akureyri No. 389/2009 with amendments No. 1135/2011, No.788/2020 and No. 1145/2022.

Article 1

Role of the University Assembly

1. [The University Assembly is a consultation forum, composed of representatives from the University's Central Administration, the Schools, representatives of University Administration staff, as well as representatives of teachers and students. The University Assembly shall be a forum for the discussion of academic issues within the University of Akureyri, and for the shaping of academic policy.]¹
2. The University Assembly forms a science and education policy for the University and seeks to aid and strengthen its development.
3. The University Council can seek the opinion of the University Assembly on anything which concerns university operations.
4. The University Assembly is authorised to issue resolutions on anything concerning the University's science and education policy, as well as on any other issues which the University Council decides to refer to it specifically.
5. The University Assembly expresses its opinion in the form of resolutions; it is a discussion forum and an advisory party on the issues presented before the Assembly.
6. The decisions of the University Council or other university institutions which report to it can not be appealed to the University Assembly for a final decision.
7. The University Assembly shall be held at least once annually, and the Rector is in charge of the meeting and announces it.
8. The Rector must publicise the University Assembly's resolutions inside the University.
